EDUCATION

New York University Abu Dhabi

Bachelor of Arts in Interactive Media Arts — May 2026

AWARDS

Designed the winning logo concept for the NYUAD Research Institute, selected by client vote (Logo Design coursework).

SELECTED UX PROJECTS

Domicile — Narrative Game, UX & Interaction Design

Sep 2025 – Apr 2026

Capstone Project — Project Lead & Designer (UX/Interaction, Environmental Art, Sound Design)

- Led a cross-functional student team to refine exploration and interaction UI across multiple usability testing cycles — unifying icon prompts into one consistent interaction pattern, fixing a disabled-cursor navigation bug, and correcting HUD proportions to improve readability.
- Built and maintained a consistent visual design system across 382 game art assets — 114 for the prologue and 113 for Arc 2 alone — spanning character sprites, UI elements, and environmental art.
- Designed the game's sound identity solo, casting and pitch-mapping raw audio into a non-verbal character voice system across 74 sound files and 60+ dialogue lines in Logic Pro.

Metro, Rerouted — A Conceptual Transit Map for Abu Dhabi

May 2026

Individual Project — Wayfinding Research & Map Design

- Designed a conceptual transit map for Abu Dhabi to clearly communicate route-specific behaviors — a weekend-only line, an express route — for a diverse, first-time rider base.
- Benchmarked global metro design systems to inform station node treatment, pictogram logic, and bilingual Arabic/Latin labeling conventions.
- Iterated across multiple map versions, balancing geographic accuracy with scan-ability and rebalancing line design to reflect modeled passenger travel patterns.

EXPERIENCE

Communications Student Assistant

Sep 2025 – May 2026

Art & Art History Department and Arts & Humanities Divisional

- Designed visual materials, branded assets, and promotional posters for departmental events, strengthening visibility and brand consistency across touchpoints.
- Managed the Arts & Humanities Dean's newsletter and supported the Administration team with event logistics and promotional material production.
- Streamlined cross-functional communication workflows with academic and administrative stakeholders to support division-wide events.

Candidate Weekend Group Leader

Nov 2025

Office of Undergraduate Admissions

- Represented NYU Abu Dhabi at its flagship admissions event, mentoring top prospective students among 280+ attendees.
- Partnered with Admissions staff and peer leaders to maintain event integrity and resolve real-time challenges.

Graphic Design Student Assistant

Sep 2024, Feb 2025

Interactive Media Department

- Created digital and print promotional materials for End-of-Semester and Capstone Showcases, helping draw audiences of 300+.
- Partnered with Interactive Media faculty to design visual assets reinforcing program objectives and audience experience.
- Led design projects from concept to delivery, incorporating faculty feedback into polished, professional final assets.

SKILLS

UX & Product Design: Unity, Wireframing & Prototyping, Interaction Design, Information Design, Design Systems, Usability Testing, Iterative Design

AI Tools: ChatGPT, Gemini, Claude Code

Visual Design & Technical: Adobe Photoshop, Illustrator, After Effects, HTML/CSS/JavaScript, p5.js, Arduino & Physical Computing, 3D Design (SolidWorks)

Administrative & Communication: Event Coordination, Newsletter Management, Project Management, Cross-Team & Stakeholder Collaboration
