

JIHO CHOI

Junior Product Designer — UX/UI

+971 56 234 0538 | jihochoi.design@gmail.com | jihochoidesign.github.io/portfolio

EDUCATION

New York University Abu Dhabi

Abu Dhabi, UAE

Bachelor of Arts in Interactive Media Arts — May 2026

SELECTED UX PROJECTS

Domicile — Narrative Game, UX & Interaction Design

Abu Dhabi, UAE

Capstone Project — Project Lead & Designer (UX/Interaction, Environmental Art, Sound Design)

- Led a cross-functional student team to refine exploration and interaction UI across multiple usability testing cycles — unifying icon prompts into one consistent interaction pattern, fixing a disabled-cursor navigation bug, and correcting HUD proportions to improve readability.
- Built and maintained a consistent visual design system across 382 game art assets — 114 for the prologue and 113 for Arc 2 alone — spanning character sprites, UI elements, and environmental art.
- Designed the game's sound identity solo, casting and pitch-mapping raw audio into a non-verbal character voice system across 74 sound files and 60+ dialogue lines in Logic Pro.
- Used ChatGPT and Gemini to collate design research and translate character concepts into pixel-sprite drafts, integrating AI tools into the day-to-day design workflow.

Metro, Rerouted — A Conceptual Transit Map for Abu Dhabi

Abu Dhabi, UAE

Individual Project — Wayfinding Research & Map Design

- Designed a conceptual transit map for Abu Dhabi to clearly communicate route-specific behaviors — a weekend-only line, an express route — for a diverse, first-time rider base.
- Benchmarked global metro design systems to inform station node treatment, pictogram logic, and bilingual Arabic/Latin labeling conventions.
- Iterated across multiple map versions, balancing geographic accuracy with scan-ability and rebalancing line design to reflect modeled passenger travel patterns.

Designed the winning logo concept for the NYUAD Research Institute, selected by client vote (Logo Design coursework).

EXPERIENCE

Communications Student Assistant

Fall 2025 – Spring 2026

Art & Art History Department and Arts & Humanities Divisional — Abu Dhabi, UAE

- Designed visual materials, branded assets, and promotional posters for departmental events, strengthening visibility and brand consistency across touchpoints.
- Managed the Arts & Humanities Dean's newsletter and supported the Administration team with event logistics and promotional material production.
- Streamlined cross-functional communication workflows with academic and administrative stakeholders to support division-wide events.

Candidate Weekend Group Leader

Winter 2025

Office of Undergraduate Admissions — Abu Dhabi, UAE

- Represented NYU Abu Dhabi at its flagship admissions event, mentoring top prospective students among 280+ attendees.
- Partnered with Admissions staff and peer leaders to maintain event integrity and resolve real-time challenges.

Graphic Design Student Assistant

Spring 2024, Spring 2025

Interactive Media Department — Abu Dhabi, UAE

- Created digital and print promotional materials for End-of-Semester and Capstone Showcases, helping draw audiences of 300+.
- Partnered with Interactive Media faculty to design visual assets reinforcing program objectives and audience experience.
- Led design projects from concept to delivery, incorporating faculty feedback into polished, professional final assets.

SKILLS

UX & Product Design: Unity, Wireframing & Prototyping, Interaction Design, Information Design, Design Systems, Usability Testing, Iterative Design

AI Tools: ChatGPT, Gemini (research collation, concept generation)

Visual Design & Technical: Adobe Photoshop, Illustrator, After Effects, HTML/CSS/JavaScript, p5.js, Arduino & Physical Computing, 3D Design (SolidWorks)

Administrative & Communication: Event Coordination, Newsletter Management, Project Management, Cross-Team & Stakeholder Collaboration
